Contents

Research Papers

The role of surface water redistribution in an area of patterned vegetation in a semi-arid environment, south-west Niger
J. Bromley, J. Brouwer, A.P. Barker, S.R. Gaze and C. Valentin 1

Geochemical evolution of a karst stream in Devils Icebox Cave, Missouri, USA
C.M. Wicks and J.F. Engeln 30

Climate, streamflow and water supply in the northeastern United States
R.M. Vogel, C.J. Bell and N.M. Fennessey 42

Parameterisation, calibration and validation of distributed hydrological models
J.C. Refsgaard 69

Statistical linkage of daily precipitation in Switzerland to atmospheric circulation and temperature
T. Brandsma and T.A. Buishand 98

Estimating infiltration recharge using a response function model
J. Wu, R. Zhang and J. Yang 124

Sources of water used by trees and millet in Sahelian windbreak systems
D.M. Smith, P.G. Jarvis and J.C.W. Odongo 140

Heterogeneities in ground-water geochemistry in a sand aquifer beneath an irrigated field
W.R. Kelly 154

Modelling of runoff generation and soil moisture dynamics for hillslopes and micro-catchments
A. Bronstert and E.J. Plate 177

Nature of solute loads in the rivers of the Bengal drainage basin, Bangladesh
D.K. Datta and V. Subramanian 196

Seasonal changes of the infiltration rates in a Mediterranean scrubland on limestone
A. Cerdà 209

Inverse modelling of seawater intrusion in the Llobregat delta deep aquifer
V. Iribar, J. Carrera, E. Custodio and A. Medina 226

Joint use of L-moment diagram and goodness-of-fit test: a case study of diverse series
A. Ben-Zvi and B. Azmon 245

Storage-outflow modelling of streamflow recessions, with application to a shallow-soil forested catchment
R.D. Moore 260

Methods for studying the response of flood flows to channel change
B. Wyżga 271

Patching rainfall data using regression methods. 1. Best subset selection, EM and pseudo-EM methods: theory
T. Makhuvha, G. Pegram, R. Sparks and W. Zucchini 289

Patching rainfall data using regression methods. 2. Comparisons of accuracy, bias and efficiency
T. Makhuvha, G. Pegram, R. Sparks and W. Zucchini 308

Patching rainfall data using regression methods. 3. Grouping, patching and outlier detection
G. Pegram 319

Comparison of analytical and numerical results for nonhysteretic redistribution in a vertical bounded soil profile
K.K. Watson, V.A. Sardana, G.C. Sander and W.L. Hogarth 335

Studies of isotopic hydrology of the basin of Mexico and vicinity: annotated bibliography and interpretation
A. Cortés, J. Durazo and R.N. Farvolden 346

Technical note: Linearised Boussinesq equation for modelling bank storage – a correction
W.L. Hogarth, R.S. Govindaraju, J.Y. Parlange and J.K. Koelliker 377
